## ASPEN Protection System

As a UK based designer and manufacturer, ASPEN Stainless is able to offer a full range of products to complete your protection system and can customize any of its Units including entirely bespoke protection systems.

### Key Benefits

Provides a hygienic impact resistant surface in those areas of high wear and traffic. Various sizes can be manufactured to suit cuts and odd shapes. This is the stainless steel version of the original Stelcon galvanised tile.

### Maintenance

Stainless steel equipment should be occasionally thoroughly checked for retained deposits and concentrated fluid build up that causes corrosion.

### Cleaning

Many factors affect the choice of cleaning method and frequency of its application. Suitable methods for stainless steel are: water and steam; mechanical non abrasive scrubbing; organic solvents and mild detergents.
